

Dr. Tanuja Ariyananda – Convenor of SARNET

Dr. Tanuja Ariyananda has been instrumental and played a lead role in formulating and operationalizing SARNET. Dr. Ariyananda is a hydro biologist with a passion for promoting and campaigning for sustainable water resources management. Dr. Ariyananda has steered the Lanka Rainwater Harvesting Forum since its inception for over 25 years. She has also served as a Member of the Ministerial Committee for Developing Policy and Strategy for Rainwater Harvesting in Sri Lanka 2005 and the Past President (2008-20012), and Secretary-General Director Women's program of the International Rainwater Catchments Systems Association. Dr. Ariyananda has authored several publications and research papers at national and international forums. Currently, she is the Chief Executive Officer of the Lanka Rainwater Harvesting Forum (LRWHF) and the Convenor of the South Asia Rainwater Network (SARNET).
