

Ms. Sony Pun - a specialist in mobilizing young water professionals.

Sony has been actively seeking and sharing knowledge on rainwater harvesting and integrated water management with the SARNET community and as a Young Rainwater Champion. She is a Project Officer at Rain Communities, an Integrated Water Resources Management project implemented by Kanchan Nepal and the International Rainwater Harvesting Alliance in rural Nepal. Sony has joined as a presenter for the knowledge-sharing initiatives of SARNET including webinars, SARNET international conferences, online debates, and video productions featuring ground-level experiences. Her interests include climate change activism and awareness raising, WASH and water conservation, research on rainwater harvesting, and Integrated water management.
