

**Seven ways
water, toilets
and hygiene
create
opportunities
for women**

**Reduces the time
women spend
collecting water and
caring for sick
relatives, unlocking
opportunities for
paid work**

A young girl with dark hair tied back, wearing a red long-sleeved shirt, is smiling and holding a light blue folder. She is in a classroom setting with colorful posters on the wall and other students in the background.

**Improves girls'
access to education,
which is crucial for
future independence
and economic
development**

**Improves
women's health
and their ability
to do paid work**

**Reduces violence
against women and
girls, as they don't
have to walk long
distances for water or
to a toilet**

**Creates opportunities
to challenge gender
norms that hold
women back in
education, business
and employment**

A woman wearing a red shirt and a purple patterned sari is operating a water pump. She is looking down at the pump's handle. The pump is connected to a large metal water tank. The scene is outdoors, with a metal fence in the background. A large white circle on the left side of the image contains text.

**Encourages women
to participate in
water and sanitation
programmes**

A woman with braided hair, wearing a blue jumpsuit and green rubber boots, is smiling as she works on a blue metal structure. She is standing on a blue concrete base and reaching up to adjust a yellow component on the structure. The structure is part of a larger blue metal frame. In the background, there are green plants, a stone wall, and a large white water tank with blue pipes. The scene is outdoors.

**Creates job
opportunities for
women in the
water and
sanitation sectors**
